

We asked Greenoak to do our extension (single storey to the side, and loft extension) which was a 6 month job, with us moving out for the duration. Alan runs a tight ship, and his team reliably turn up and get on with the job, sometimes working as late as 7pm if necessary (to get the new roof on and watertight before the December weather set in). They started on time and finished on time too. I would go by the house almost daily and the job foreman would readily walk me through the house to show me progress made. The team working on our house were all polite, helpful and hard working. Issues were immediately brought to our attention and resolved just as quickly. Greenoak have done a terrific job and we're very pleased. I wouldn't hesitate to recommend Greenoak to anyone looking to have building work done, and have already done so to anyone asking about our build.

Nicole, Maidenhead
